### **Provided details about the instruction that will take place in the courses and grades selected above**

- Grades K-5: We believe in a holistic approach to education in which learning is amplified when we acknowledge the needs of the whole student, not just his/her academics. As such, students' physical health and safety are building blocks for any learning that follows, regardless of the class setting in which these lessons are provided. This content will be delivered by grade level during Physical Education courses. Students will be exposed to the content and will be able to ask questions. In addition, we will be emphasizing many of the requirements outlined in this rule during Red Ribbon Week in various activities, further emphasizing the importance of this content.
- Grades 6-12: We believe in a holistic approach to education in which learning is amplified when we acknowledge the needs of the whole student, not just his/her academics. As such, students' physical health and safety are building blocks for any learning that follows, regardless of the class setting in which these lessons are provided. This content will be delivered by grade level during courses ensured to be offered to all students within their particular grade level (i.e. English, History, Physical Education). Students will be exposed to the content and will be able to ask questions. In addition, we will be emphasizing many of the requirements outlined in this rule during Red Ribbon Week in various activities, further emphasizing the importance of this content.
