### INTRODUCTION AND BACKGROUND

The Annual Update to the Florida Educational Equity Act (FEEA) Plan is a reporting tool that enables the Department of Education to monitor and ensure that the provisions of the FEEA are adhered to and that educational resources are equitably distributed. The FEEA became law in June 1984 and its implementing rules adopted by the State Board of Education in 1985. The Equity Act was amended in 1993 to mandate stronger monitoring and enforcement for gender equity in athletics, and again in 2002 to clarify responsibilities for the K-20 education system. Rule 6A-19.004, Interscholastic, Intercollegiate, Club and Intramural Athletics, was amended in September 1994 to reflect the new monitoring and enforcement requirements. The FEEA and other state and federal legislation mandate that students and employees shall not be discriminated against based on race, ethnicity, national origin, gender, disability, marital status or pregnancy.

The Department of Education, Office of Equal Educational Opportunity (OEEO) is assigned responsibility for compliance oversight of the Florida Educational Equity Act, Section 1000.05, Florida Statutes and other state and federal legislation relating to equity in education.

The Volusia County School District's 2016-17 Annual Update to the Florida Educational Equity Act Plan was prepared by the Division of Human Resources' Equity Office, with the assistance of other district departments and personnel.

### **Evidence of Success**

The evaluation reveals some progress in increasing enrollment percentages in Level 3 courses for White, Black, and Black Male students in grades 9-12. White student enrollment increased from 70% during the 2014-15 school year to 71% during the 2016-17 school year. Black student enrollment increased from 50% to 52% and Hispanic student enrollment remained at 55%, however the numbers increased from 1,929 to 2,255.

The evaluation revealed Black Male student enrollment increased three (3) percentage points from 45% to 48%, from the 2014-15 to 2016-17 school years. Hispanic Male student enrollment decreased two (2) percentage points from 53% in 2014-15 to 51% in 2016-17.

### Methods and Strategies

The following methods and strategies will be used for 2017-2018 to increase enrollment for minority students in Level 3 courses and to close enrollment gaps for Black, Hispanic, Black males, and Hispanic male students

<u>Increase Stakeholder Communication</u> - Increase opportunities for parents and community stakeholders' understanding of rigorous academic options by developing marketing materials, strategies and parent/community informational sessions. Elicit the support of community leaders to help bridge the gap between school and the community.

- > Community Task Force Develop a community Task Force in coordination with postsecondary institutions, community leaders and various stakeholders to address the issues surrounding enrollment of underrepresented students in rigorous curriculum. Develop strategies in collaboration with various stakeholders to effective and efficiently address the areas of concern.
- ➤ Parent and Student Seminars Develop parent and student seminars both face to face as well as online in coordination with the Coordinator for Student Affairs, Equity Specialist and Advanced Programs TOA to highlight advanced programs and opportunities for secondary students. Specifically target high minority schools.
- ➤ High School Showcase Expand the opportunity to provide transportation for students and families of or our minority students who might struggle with transportation issues due to the venue location. Explore the option of offering the High School Showcase during the day as a field trip for a 8<sup>th</sup> grade students.

<u>Increase support for schools and teachers</u> - Increase support for schools and teachers to broaden their understanding of rigorous academic options, instructional strategies and barriers that specifically target underrepresented students; explore individual school data and developing specific school based strategies.

- ➤ Equity Reports Work in conjunction with technology services to develop reports that are easily accessible to schools regarding enrollment in level 3 courses by various subgroups.
- ➤ Growth Targets Continue incorporating data analysis into the School Improvement Plan (SIP) discussion. Work in conjunction with school liaisons to monitor data and specific strategies for each individual school. Equity Specialist will meet with schools quarterly to review growth targets and barriers to success.
- ➤ Professional Development Continue providing professional development opportunities to school administrators, teachers, and school counselors focusing on improving underserved populations' access to and success in educational and training programs that lead to high-skill, high-wage, and high-demand careers. Develop a workshop for all new teachers on the topic of Access and Equity and Multiculturalism.

- Positive Behavioral Support Interventionalists Provide a Positive Behavioral Support Interventionalist (PBSI's) to each middle school to assist teachers, students and administrators to support programs related to the school's academic and behavior initiatives. The Positive Behavioral Support Interventionalist will provide proactive leadership to all stakeholders, centered around the delivery of programs and services designed to support student academic achievement, personal and social development. He/she will work cooperatively with the principal, school counselor, assistant principals, staff, students and parents, in order to promote a positive school climate on each of our middle school campuses.
- ➤ Restorative Justice Expand the Restorative Justice Model over a 3-year period to all middle schools. Restorative Practices will help to create a positive school community and respond in an effective way when problems arise by building social capital, achieve social discipline and increase the achievement gap through participatory learning and decision making.

<u>Increase Curriculum Offerings and Academic Support</u> - Increase advanced course offerings at the middle school and high school levels, as well as Industry Certification opportunities. Explore academic support opportunities that provide test taking, organizational and academic strategies.

- Cambridge/AICE Support the roll out of the AICE program at Deltona High School, Pine Ridge High School and Seabreeze High School. Explore the expansion of AICE to feeder middle schools and additional high schools. Specifically work with AICE coordinators to identify and recruit underrepresented students for the AICE program.
- ➤ Dual Enrollment Increase dual enrollment "on campus" opportunities to help eliminate transportation/scheduling barriers for students. Ensure that parents have an understanding of the financial and academic benefits of dual enrollment classes. Explore the possibility of offering Dual Enrollment "on campus" opportunities at the MS level for qualifying students. Help promote dual enrollment opportunities at the Advanced Technology Center (ATC) in the manufacturing and construction programs. Help promote BCU Dual Enrollment opportunities across all 10 high schools and specifically target underrepresented students.
- TRIO Program Expand our partnership with Daytona State College and explore placing Trio in all MS and HS's throughout the district. Provide outreach and student programs designed to identify and provide services for individuals from disadvantaged backgrounds. TRIO includes eight programs targeted to serve and assist low-income individuals, first-generation college students, minority students, and individuals with disabilities to progress through the academic pipeline from middle school to post baccalaureate programs.

### **New Accountability Measure and Timelines**

2016-2017 Annual Update to the Florida Educational Equity Act Plan

Part IV: Gender Equity in Athletics

### PART IV: GENDER EQUITY IN ATHLETICS

All school districts are required to submit data for each school's athletic program to ensure compliance with Title IX and the Florida Educational Equity Act. Any school deemed out of compliance is required to submit a Corrective Action Plan. A Compliance Verification Form, signed and dated by the Superintendent, indicating whether or not the district is in compliance, is included in this section of the Annual Update.

### A. Athletics Compliance Verification

A self-review conducted by each school offering inter-scholastic athletics in 2016-17 shows that all ten high schools in the District comply with all components required by Title IX and the FEEA, except for Component #1, which requires that "Sports and levels of competition effectively accommodate the interests and abilities of members of both sexes." The OEEO defines participant as anyone who (1) participated in competition or (2) participated with the team and was eligible for competition but did not play. Participation is determined as of the date of the first competitive event of the sport. Where the percentage of a school's Varsity or Junior Varsity (JV) female participation is found to be disproportionate to the school's female enrollment percentage, the school may be deemed out of compliance with component #1. The Department of Education uses three prongs as measurement of compliance:

- **Prong 1** Participation opportunities for males and females are substantially proportionate to their enrollment in the institution. (Substantially proportionate is defined as equal to the representation of female students in the school population.)
- **Prong 2** If females are underrepresented, the institution can show a history of continuing program expansion.
- **Prong 3** If females are underrepresented and there is no history of expansion, the institution can demonstrate that all interests and abilities of women are effectively accommodated

Mainland High School was found in compliance for the 2016-17 school year in all nine components. Atlantic, DeLand, Deltona, New Smyrna Beach, Pine Ridge, Seabreeze, Spruce Creek, Taylor, and University High Schools were reported out of compliance on component #1, however were found in compliance on components #2 - 9.

Schools reported out of compliance have completed Corrective Action Plans, located in Appendix G. The 2016-17 Monitoring Forms, indicating male and female student sports participation, are also located in Appendix G.

C. Districts are required to answer the following questions to ensure that single-sex schools and classes are operated in compliance with the requirements of Title IX and Section 1002.311, F.S.

### 1. Does the district offer single-sex education?

The district offers single-sex classes as an option at Woodward Avenue Elementary School. The district also offers single-sex schools through the Department of Juvenile Justice, the Department of Corrections, and the Department of Children and Families.

### 2. How is single-sex education being justified?

The district offers single-sex classes in compliance with Title IX and Section 1002.311, F.S. The district's single-sex program offers voluntary, non-vocational single-sex classes based on the important objectives of bridging gender academic gaps and improving educational achievement. The program is offered to both male and female students and in conjunction with substantially equal non-vocational co-educational classes.

Single-sex schools are provided for students identified as substance-abuse dependent, truant, runaway, delinquent, offenders, or in need of behavior/academic modification. Most students are referrals from the Department of Juvenile Justice, the Department of Corrections and the Department of Children and Families.

### 3. How does the district keep track of single-sex public education?

The district's Instructional Support Services Office of Curriculum and Assessments conducts annual reviews of current single-sex educational programs.

The district's Student Assignment Office, the Alternative Schools Administrator, and applicable state agencies coordinate movement of students in and out of regular education and single-sex schools operated by the Departments of Juvenile Justice, Corrections, and Children and Families.

### 4. What does the district do to insure there is no illegal sex segregation in education?

The Equity Office monitors the district's policies and practices to ensure there is no illegal sex segregation in education. This includes reviewing applicable school data, investigating complaints, making presentations at district and school meetings and conducting periodic site visits to schools and facilities.

5. Is single-sex education intended to decrease sex discrimination in the outcomes? Single-sex classes at Woodward Avenue Elementary are intended to offer an environment for improved learning for girls and boys. Decreasing sex discrimination through focus on individual educational and social goals is an indirect outcome.

Single-sex schools are unique environments, such as residential facilities, operated through the Department of Juvenile Justice, which requires separation of students by gender. Facilities, such as the PACE Center for Girls, target the needs of females such as teen pregnancy and welfare dependency. The G4S Youth Services, Inc. residential facility is designed to provide rehabilitation for committed sex offenders through performance and behavior modification.

### 6. Do the schools provide comparable co-educational options?

Single-sex classes are offered on a completely voluntary basis to both male and female students as an alternative to coeducational classes. No single-sex class is offered in a grade that is not otherwise offered in a coeducational setting. Single-sex and coeducational classes are substantially equal to each other in terms of educational benefits provided,

qualifications of faculty, and the quality, accessibility and availability of facilities and resources. Additionally, the curriculum provided in both single-sex and coeducational classes are identical.

## 7. How are single-sex educational options reviewed, monitored, and evaluated to insure that they are legal.

The district's Equity Office conducts biennial periodic evaluations to ensure that single-sex schools and classes are operated in compliance with the requirements of Title IX and Section 1002.311, F.S.

### 8. Who is involved in the evaluations and guidance on the implementation of single-sex education?

The district's Instructional Support Services Office of Curriculum and Assessments conducts annual reviews of current single-sex educational programs. The Instructional Support Services Office of Curriculum and Assessments conducts pre-implementation reviews of requested single-sex educational programs.

The district's Student Assignment Office, the Alternative Schools Administrator, and applicable state agencies coordinate movement of students in and out of regular education and single-sex schools operated by the Departments of Juvenile Justice, Corrections, and Children and Families.

### 9. What assurances are provided to insure that single-sex or co-educational options are completely voluntary.

Parents are provided information explaining the Single-Gender Choice program and the parents' right to "Opt-in". Annual enrollment in the program requires affirmative parental consent. Single-sex program information is also posted on the school's website.

Enrollment at single-sex schools is often mandated by the juvenile justice system; therefore, voluntary placement cannot be completely assured. When not mandated, enrollment at single-gender facilities is through voluntary referrals.

### 10. Are there pre-implementation reviews of proposed single-sex education?

The Instructional Support Services Office of Curriculum and Assessments conducts preimplementation reviews of requested single-sex educational programs. Currently, the district is not proposing any new single-sex programs.

### 11. What entities review and approve single-sex options, and what standards do they use?

The Superintendent recommends and the School Board makes final approval for the approval, denial, or discontinuation of single-sex programs and any other optional program within the district. The Instructional Support Services Office of Curriculum and Assessments reviews single-sex programs and any other optional program under current Florida Public School Accountability Laws and Procedures.

### 12. Is there assistance from external groups for training or consultation?

Stetson University, in collaboration with the Nina B. Hollis Institute, assists the district with training and consultation of school personnel at Woodward Avenue Elementary School.

The Department of Juvenile Justice provides technical assistance and conducts quality assurance reviews of educational programs in Florida's juvenile justice facilities

# 13. How does the district monitor to insure that single-sex education is not contributing to gender stereotypes or sex discrimination in outcomes? For example, is data provided on girls compared to boys, or on any other populations, such as low-income minority boys compared to low-income minority girls?

The Equity Office monitors student enrollment to ensure that single-sex education is not contributing to sex stereotypes or sex discrimination in outcomes. Corrective action is recommended when necessary. The Equity Officer also makes presentations to district administrators aimed at preventing sexually discriminatory or stereotypical practices.

# 14. Do you or anyone else monitor to learn if there is equity between and among the single-sex groupings and the mixed-sex alternatives on equity measures.

The Equity Office monitors to ensure that single-sex and coeducational classes are substantially equal to each other in terms of educational benefits provided, curriculum, qualifications of faculty, and the quality, accessibility and availability of facilities and resources.

# Boys and girls learn differently

There are hardwired differences between boys and girls and a growing number of educators have become convinced that we should use these differences to ensure everyone reaches his/her full potential. Here at Woodward we are committed to provide a quality education for all of our students. Our single-gender classes are just one more option we use to provide the best education for your child. We will continue to do whatever possible to ensure the success of all students and to monitor your child's progress.

# Girls and boys hear differently

Girls are bom with more sensitive hearing than boys. These differences become larger as children grow up. Some boys who are labeled "attention deficit" may just need teachers to SPEAK UP.

# Girls and boys see differently

Given a choice between a spinning mobile and a human face, newborn boys prefer to look at the mobile. Newborn girls prefer to look at the face. Boys' eyes are wired for movement and girls are wired for color and detail.

# Girls and boys process differently

Boys and girls process language, spatial reasoning, memories and emotions in different regions of the brain and at different times during their childhood.

In an all girls' classroom, teachers can focus on:

- Harnessing the girls' natural verbal energy
- Building self-esteem in math and science by encouraging risk-taking.
- Fostering a sense of "girl power" and promoting girls helping girls.

- Hamessing boys' natural physical energy through brain breaks
- Building self-esteem in reading and language arts by teaching reading through movement and boy specific motivation.
- Fostering respect and instilling the characteristics associated with becoming a "man".

# Frequently Asked Questions:

The real world is coed so isn't is obvious that school be coed?

In a coed classroom, even with the best leadership how you look or act seems to matter more than who you are. This is minimized in single-gender classrooms. If it's wrong to segregate kids by race, why is it (

If it's wrong to segregate kids by race, why is it OK to segregate kids by gender?

Offering single-gender education in public schools is about expanding choices, not restricting them. This new option opens up opportunities for same-gender education that have traditionally been reserved for exclusive prep schools, which are cost-prohibitive.

If I choose this program for my child, will they have any classes with the opposite gender?

Yes, at Woodward Avenue the classes sometimes mix for Physical Education, recess, and lunch.

What do I do if I want my child in a single-gender done? Talk to your child's teacher and tell him/her that you would like your child to be considered.

Part VII: Pregnant and Parenting Students

### PART VII: PREGNANT AND PARENTING STUDENTS

#### PREGNANT AND PARENTING STUDENTS

1. How does the district make provisions for pregnant and parenting students to complete the coursework necessary to earn a high school diploma? How are ancillary services (such as child care, health care, social services, parent education and transportation) provided?

The Volusia County Schools' Teen Parent Program is authorized by Florida Statute 1003.54. Services are provided for male and female pregnant and/or parenting students until graduation. Students in the program can:

- remain in their zone school with their peers while pregnant and parenting;
- receive district-supported childcare at any licensed daycare of their choice;
- receive school bus transportation for their babies under specific conditions;
- earn elective credit(s) in Parenting courses with instruction in pre and post-natal education and parenting skills.

Pregnant and parenting students have the legal choice to remain at their zoned school to pursue their diploma. Parenting students who are enrolled in and attending school full-time can take advantage of the district-supported childcare during school days. They can choose any licensed or registered child care facility. Students in the Teen Parent Program must take a parenting course either at their school or virtually to be/remain eligible for child care services. Transportation is provided for the student/baby if the student is eligible for bus service and the child care is along the student's bus route. The district supplies a car seat on the bus for the child.

2. If the district operates a separate facility for pregnant and parenting students, how are students informed of the different curricula, services, or other options available at the facility versus what is available at their home schools? Please attach brochure(s) used to inform pregnant and parenting students of their educational options.

The district does not operate a separate facility for pregnant and parenting students. The Chiles Academy, a charter school located in Daytona Beach, is available for Pregnant and Parenting students only.

3. How are school counselors and administrators trained to affectively advise pregnant or parenting students of their options to participate in regular classroom activities or enroll in a special program, and their access to curricular, extracurricular, and ancillary service programs?

Teenage Parent Program brochures are distributed to all schools and the services are discussed at the Guidance Counselors annual meeting in August. Information is also available on the VCS website.

A copy of the Teenage Parent Program brochure is included in this section.

### B. Procedure

- 1. Step One Within twenty (20) days of the event which gave rise to the grievance, the student and/ or the student's parent or guardian shall meet with the school principal to resolve the matter informally. The grievant shall inform the principal that the meeting is for the purpose of initiating the grievance procedure. A student and/or the student's parent or guardian may choose to first contact the equity officer regarding the grievance prior to meeting with the school principal. If such contact occurs, the twenty (20) day period set out in this step shall be extended to thirty (30) days. Within five days of the meeting, the principal shall provide the grievant with a written response to the issues raised. The principal shall include a grievance form with the response to the student and/or the student's parent or guardian. The principal shall complete the applicable portions of the form and acknowledge the date on which the conference occurred.

To do so, the grievant must, within ten days of receipt of the area superintendent's decision, file a written request for an informal hearing with the area superintendent. The area superintendent shall forward the request for informal hearing to the superintendent, who shall designate a hearing officer. The hearing officer shall schedule the date, time and place for the informal hearing. The grievant, the area superintendent and the school principal shall be present. Appendix E:
Employees with HIV/AIDS
(School Board Policy 519)

### EMPLOYEES WITH HIV/AIDS

### 1. Statement of Purpose

All employees diagnosed as having Human Immunodeficiency Virus (HIV) disease or Acquired Immune Deficiency Syndrome (AIDS) including clinical evidence of infection with the AIDS associated virus (HIV) and receiving medical attention may wish to continue to work. As long as employees are able to meet acceptable performance standards, and medical evidence indicates that their condition is not a threat to themselves or others, employees shall be assured of continued employment. Pursuant to the laws protecting disabled individuals, such individuals shall not be discriminated against on the basis of their disabilities, and if it becomes necessary, some reasonable accommodations will be made to enable qualified individuals to continue to work. No employee will be subjected to mandatory testing for HIV/AIDS.

### 2. Training and Education

Many of the problems, which arise in the work place concerning AIDS or HIV disease, are caused by lack of knowledge about the disease and misunderstanding of the ways in which it is transmitted. The most practical means of combating this fear is education. The school district will make a concerted effort to educate employees as to the facts regarding blood-borne infections and how they are transmitted. Supervisors should be sensitive and responsive to co-workers' concerns, and emphasize employee education.

### 3. Confidentiality

The school board realizes that an employee's health condition is personal and confidential. Personal medical files or information about the employees are exempt from public disclosure. In addition, information relating to a specifically named individual, the disclosure of which would constitute an unwarranted invasion of personal privacy, is prohibited. Thus, special precautions should be taken to protect such information regarding an employee's health condition in order to prevent instances of disclosure that may invade the personal privacy of employees. As determined by the superintendent/designee in accordance with the law and in consultation with the advisory panel, only those supervisors with a need to know should be informed of an employee's health condition.

### 4. Conditions Which May Warrant Convening of Advisory Panel

Any staff member diagnosed as having AIDS or HIV disease (including clinical evidence of infection) and receiving medical attention, is not prohibited from reporting for duty. However, if an employee so diagnosed evidences any of the following conditions, the superintendent will convene an advisory panel for the purpose of making recommendations on the most appropriate work assignment for the employee:

- (d) Presence of open wounds, cuts, lacerations, abrasions, or sores on exposed body surfaces where impervious occlusion cannot be maintained; and
- (e) Impairment of gastrointestinal and/or genito-urinary function such that control of internal body fluids cannot be maintained.
- 5. The Advisory Panel shall be composed of:
  - (a) Superintendent/Designee;
  - (b) County Health Officer, Volusia County Public Health Department;
  - (c) Attending physician of the employee with HIV infection;
  - (d) Student Services Health Specialist;

  - (f) Legal counsel for school board, when and as determined by the superintendent as appropriate;
  - (g) Legal counsel, union representative or other advisor of the employee, when and as appropriate or requested; and
  - (h) Other school district staff, when and as appropriate.

Persons listed in A-C shall constitute the advisory panel.

Persons listed in E-H may participate at the invitation of the superintendent or at their request.

### 6. Advisory Panel Responsibilities

The general intent of the advisory panel is to serve as an expert professional resource to advise the superintendent in special situations where information about appropriate environment may not be available, complete, clear, or readily amendable to lay interpretation. It is expected that recommendations of the advisory panel shall be based solely upon current medical and employment information consistent with established ethical guidelines and considerations in accordance with guidelines of the Centers for Disease Control and other scientific and relevant professional bodies. Responsibilities of the advisory panel shall include:

- (a) Review employee's medical history and current status;
- (b) Review prior work assignments, employment history, etc.;
- (c) Assess risk-benefit options; then present and discuss employment options with employee, as applicable;
- (d) Reduce findings, options, and recommendations to writing and review draft report before submission to superintendent, focusing on key issues, unresolved problems, if any, and summary recommendations;
- (e) Submit written report to superintendent and remain available as needed; and
- (f) Re-evaluate all panel cases on a continuing basis at least once every six months and more often as circumstances change in the categories listed in #4 above.

### 7. Advisory Panel Protocol

If the superintendent determines that any one of the conditions in #4 exists, the employee in question will be placed on sick leave or special assignment.

- (a) The superintendent shall have 15 working days (equivalent to three calendar weeks) to collect data relevant to the case. He must also schedule and notify advisory panel members of the initial review meeting, date, time and location.
  - (1) The superintendent shall obtain consent for release of medical information and past medical history, laboratory tests, and other relevant records.
  - (2) Critical medical tests and other procedures will be conducted during this period as requested by the employee's physician, the county health officer, or other medical practitioners as warranted.
- (b) The advisory panel shall have 10 additional working days (two more calendar weeks) to review the data collected and to make a recommendation to the superintendent.
  - (1) If a medical review indicates that continuation of special status is not indicated, the advisory panel will recommend that the employee return to work.

| # 1                                      | We do not meet the student population percentage for varsity sports this year but we do accommodate the interest and abilities for both sexes of our students. We did meet compliance for our JV sports.  Our girls have not shown a great interest in athletic participation even with our efforts to attract more females to take part. We are providing opportunities but the girls are just not interested. It is also very hard to match the percentage of student enrollment with athletic participation because there are no female sports that can match the numbers for male football.  We were able to add a JV basketball team for the girls this year which helped our numbers as well as a decline in male participation on the JV level. We will continue our efforts to attract more females to participate in athletics especially at the varsity level. We are working to add cross country next year with an emphasis on female participation. We will continue our efforts with coaches making announcements for meetings, open facilities and try outs. We are updating the athletics page of the school's website which will help give better access to students and parents about our athletic offerings. We are having a program on college recruiting and scholarships later this year that we hope will help attract more female participation in athletics. | Jim Gawriluk - Athletic Director<br>386-575-4153 ext 44106<br>(cell) 386-717-4714<br>Carolyn Carbonell - Principal<br>386-575-4153 ext 44008 | May 2018         |

We hereby verify that the above corrective action plan will be implemented to bring the institution into compliance within the time frame indicated in the Plan.

| 1   | We graduated a significant number of female athletes last year, and although we saw an increase in female jv participants, it was not significant enough to make up for the number of senior female athletes from last year. Our softball program was able to successfully grow based on their community efforts last summer and fall. Our new girls basketball coach will be offering youth camps to hopefully foster growth in girls basketball in our community. Our volleyball coach is expecting a huge freshman class and is willing to create a freshman team to accommodate the growing popularity of volleyball in our community. | Gerald Fuller-Athletic Director 1015 10th Street New Smyrna Beach, FI 32168 gafuller@volusia.k12.fl.usz | Summer 2017- Spring 2018 |

We hereby verify that the above corrective action plan will be implemented to bring the institution into compliance within the time frame indicated in the Plan.

Florida Educational Equity Act Section 1000.05, Florida Statutes

#### The Florida Educational Equity Act

Section 1000.05, F.S. Discrimination against students and employees in the Florida K-20 public education system prohibited; equality of access required.

- (1) This section may be cited as the "Florida Educational Equity Act."
- (2)(a) Discrimination on the basis of race, ethnicity, national origin, gender, disability, or marital status against a student or an employee in the state system of public K-20 education is prohibited. No person in this state shall, on the basis of race, ethnicity, national origin, gender, disability, or marital status, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any public K-20 education program or activity, or in any employment conditions or practices, conducted by a public educational institution that receives or benefits from federal or state financial assistance.
- (b) The criteria for admission to a program or course shall not have the effect of restricting access by persons of a particular race, ethnicity, national origin, gender, disability, or marital status.
- (c) All public K-20 education classes shall be available to all students without regard to race, ethnicity, national origin, gender, disability, or marital status; however, this is not intended to eliminate the provision of programs designed to meet the needs of students with limited proficiency in English, gifted students, or students with disabilities or programs tailored to students with specialized talents or skills.
- (d) Students may be separated by gender for a single-gender program as provided under s. 1002.311, for any portion of a class that deals with human reproduction, or during participation in bodily contact sports. For the purpose of this section, bodily contact sports include wrestling, boxing, rugby, ice hockey, football, basketball, and other sports in which the purpose or major activity involves bodily contact.
- (e) Guidance services, counseling services, and financial assistance services in the state public K-20 éducation system shall be available to students equally. Guidance and counseling services, materials, and promotional events shall stress access to academic and career opportunities for students without regard to race, ethnicity, national origin, gender, disability, or marital status.
- (3)(a) No person shall, on the basis of gender, be excluded from participating in, be denied the benefits of, or be treated differently from another person or otherwise be discriminated against in any interscholastic, intercollegiate, club, or intramural athletics offered by a public K-20 educational institution; and no public K-20 educational institution shall provide athletics separately on such basis.
- (b) Notwithstanding the requirements of paragraph (a), a public K-20 educational institution may operate or sponsor separate teams for members of each gender if the selection for such teams is based upon competitive skill or the activity involved is a bodily contact sport. However, when a public K-20 educational institution operates or sponsors a team in a particular sport for members of one gender but does not operate or sponsor such a team for members of the other gender, and athletic opportunities for that gender have previously been limited, members of the excluded gender must be allowed to try out for the team offered.

- (c) This subsection does not prohibit the grouping of students in physical education classes and activities by ability as assessed by objective standards of individual performance developed and applied without regard to gender. However, when use of a single standard of measuring skill or progress in a physical education class has an adverse effect on members of one gender, the educational institution shall use appropriate standards which do not have such effect.
- (d) A public K-20 educational institution which operates or sponsors interscholastic, intercollegiate, club, or intramural athletics shall provide equal athletic opportunity for members of both genders.
- 1. The Board of Governors shall determine whether equal opportunities are available at state universities.
- 2. The Commissioner of Education shall determine whether equal opportunities are available in school districts and Florida College System institutions. In determining whether equal opportunities are available in school districts and Florida College System institutions, the Commissioner of Education shall consider, among other factors:
- a. Whether the selection of sports and levels of competition effectively accommodate the interests and abilities of members of both genders.
- b. The provision of equipment and supplies.
- c. Scheduling of games and practice times.
- d. Travel and per diem allowances.
- e. Opportunities to receive coaching and academic tutoring.
- f. Assignment and compensation of coaches and tutors.
- g. Provision of locker room, practice, and competitive facilities.
- h. Provision of medical and training facilities and services.
- i. Provision of housing and dining facilities and services.
- j. Publicity.

Unequal aggregate expenditures for members of each gender or unequal expenditures for male and female teams if a public school or Florida College System institution operates or sponsors separate teams do not constitute nonimplementation of this subsection, but the Commissioner of Education shall consider the failure to provide necessary funds for teams for one gender in assessing equality of opportunity for members of each gender.

(e) A public school or Florida College System institution may provide separate toilet, locker room, and shower facilities on the basis of gender, but such facilities shall be comparable to such facilities provided for students of the other gender.

- (4) Public schools and Florida College System institutions shall develop and implement methods and strategies to increase the participation of students of a particular race, ethnicity, national origin, gender, disability, or marital status in programs and courses in which students of that particular race, ethnicity, national origin, gender, disability, or marital status have been traditionally underrepresented, including, but not limited to, mathematics, science, computer technology, electronics, communications technology, engineering, and career education.
- (5)(a) The State Board of Education shall adopt rules to implement this section as it relates to school districts and Florida College System institutions.
- (b) The Board of Governors shall adopt regulations to implement this section as it relates to state universities.
- (6) The functions of the Office of Equal Educational Opportunity of the Department of Education shall include, but are not limited to:
- (a) Requiring all district school boards and Florida College System institution boards of trustees to develop and submit plans for the implementation of this section to the Department of Education.
- (b) Conducting periodic reviews of school districts and Florida College System institutions to determine compliance with this section and, after a finding that a school district or a Florida College System institution is not in compliance with this section, notifying the entity of the steps that it must take to attain compliance and performing follow-up monitoring.
- (c) Providing technical assistance, including assisting school districts or Florida College System institutions in identifying unlawful discrimination and instructing them in remedies for correction and prevention of such discrimination and performing follow-up monitoring.
- (d) Conducting studies of the effectiveness of methods and strategies designed to increase the participation of students in programs and courses in which students of a particular race, ethnicity, national origin, gender, disability, or marital status have been traditionally underrepresented and monitoring the success of students in such programs or courses, including performing follow-up monitoring.
- (e) Requiring all district school boards and Florida College System institution boards of trustees to submit data and information necessary to determine compliance with this section. The Commissioner of Education shall prescribe the format and the date for submission of such data and any other educational equity data. If any board does not submit the required compliance data or other required educational equity data by the prescribed date, the commissioner shall notify the board of this fact and, if the board does not take appropriate action to immediately submit the required report, the State Board of Education shall impose monetary sanctions.
- (f) Based upon rules of the State Board of Education, developing and implementing enforcement mechanisms with appropriate penalties to ensure that public K-12 schools and Florida College System institutions comply with Title IX of the Education Amendments of 1972 and subsection (3) of this section. However, the State Board of Education may not force a public school or Florida College System institution to conduct, nor penalize such entity for not conducting, a program of athletic activity or athletic scholarship for female athletes unless it is an athletic activity approved for women

by a recognized association whose purpose is to promote athletics and a conference or league exists to promote interscholastic or intercollegiate competition for women in that athletic activity.

- (g) Reporting to the Commissioner of Education any district school board or Florida College System institution board of trustees found to be out of compliance with rules of the State Board of Education adopted as required by paragraph (f) or paragraph (3)(d). To penalize the board, the State Board of Education shall:
- 1. Declare the school district or Florida College System institution ineligible for competitive state grants.
- 2. Notwithstanding the provisions of s. <u>216.192</u>, direct the Chief Financial Officer to withhold general revenue funds sufficient to obtain compliance from the school district or Florida College System institution.

The school district or Florida College System institution shall remain ineligible and the funds shall not be paid until the institution comes into compliance or the State Board of Education approves a plan for compliance.

(7) A person aggrieved by a violation of this section or a violation of a rule adopted under this section has a right of action for such equitable relief as the court may determine. The court may also award reasonable attorney's fees and court costs to a prevailing party.
