March 1, 2021 – March 31, 2021

*School District of Volusia County
Budget Amendment No. 3
March 1, 2021 through March 31, 2021*

General Fund

Revenues:

- Florida Education Finance Program (3310) decreased due to FEFP adjustments for the McKay and Family Empowerment Scholarships.
- Miscellaneous Contributions (3440) increased due to monies collected for technology donations (project 00190).
- Miscellaneous Local Sources (3490) increased due to funds received for health care plans reduction - COVID 19 (project 00390).
- Transfers from Capital (3630) increased due to Charter School Capital Outlay disbursements. Per DOE memo the disbursements must be a direct expenditure to the Capital Outlay funds.

Beginning Fund Balance:

Capital Outlay Funds

Revenues:

- Charter School Capital Outlay Funding (3397) increased as the state sent the pass-through funds.

Beginning Fund Balance:

- No change

Appropriations:

- Unlike other funds that require changes in function (action or purpose) to be amended, the capital funds require that account (article purchased, or service obtained) be amended. Due to the extended timeline for most capital projects, they are budgeted to one account and amended as the project progresses through completion. An example would be a new school that takes three years to purchase land, plan, and design, prepare site, construct, and purchase equipment. The full estimate of the project would be budgeted to account 5631 (buildings and fixed equipment) and amended to the other necessary account codes over the three-year time frame, as the requirements for these other items are known. Financial Services is responsible for accurately amending the object codes.

Capital Funds are controlled by defined projects. Capital projects are established by Financial Services and monitored very closely to ensure that the intent and scope of the project is followed and that new projects and changes to existing projects are reported to the School Board. Before Facilities notifies the School Board of the need for a new project or a change order to an existing project, they check with Financial Services to ensure sufficient funds are available to cover the request. After a new project is established the amount may change due to several factors. After the initial estimate is made and the project is submitted to the School Board, the planning process begins, and the architects and engineers assess the scope needed to complete the project. Project funds may be adjusted based on this assessment. After planning is complete and the project is bid, the bid documents are reported to the School Board and the project funds may need to be adjusted again based on this actual information. Financial Services amends the amount requested for planning, construction and equipping, but holds the contingency portion of the project in the fund balance until required. For this reason, you will see many small amounts going to and from the projects as required for test and

balance of projects and final reconciliation of the contracts with vendors.

With the economy improving, bids are starting to come in higher than anticipated due to increasing cost of materials and the increasing competitive workload of contractors, which adds to the cost of labor. Both factors are common in a growing economy. For this reason, Financial Services maintains a sufficient fund balance to cover such occurrences. All capital projects that Financial Services has amended are shown on the “300 Amended Capital Projects and Balances” list. In addition, brief descriptions of the amendments are listed below:

- Deltona HS – Power Feeder Replacement Bldg. 3 increased \$75,000 due to this being a newly created project.
- Friendship Elem – Pavilions increased \$2,058 due to project costs coming in higher than originally anticipated.
- Pathways Elem – New Marquee increased \$29,454.81 due to project costs coming in higher than originally anticipated.
- Sweetwater Elementary – Replace Fire Alarm increased \$236,276 due to the lowest project bid coming in higher than expected.
- Various Schools – School Hardening – Safety and Security of School Building decreased \$32,218 due to the Charter School allotments being distributed.

Ending Balance:

- The Capital Restricted Fund Balance (restricted for capital purposes), decreased \$342,788.81, as the additional revenues were recorded, and projects were added and amended. Financial Services manages the capital fund balance very closely for new projects and changes are recommended to the Board.
