MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the District School Board of Volusia County, Florida, (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with our basic financial statements and notes thereto found on pages 18a through 18gg.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at June 30, 2017, by \$665,217,590 (net position). Of this amount, \$750,643,160 represents investments in capital assets (net of related debt), and restricted and unrestricted net position of \$130,270,771 and (\$215,696,341), respectively.
- The District's total net position increased \$12,028,179.
- At June 30, 2017, the District's governmental funds reported combined fund balances of \$174,423,641, an increase of \$35,772,081 in comparison with the prior year.
- At June 30, 2017, the unassigned fund balance for the General Fund was \$27,927,369, or 6.2 percent of total General Fund revenues. The General Fund total assigned and unassigned fund balance was \$43,015,582, or 9.5 percent (financial condition ratio) of General Fund total revenues.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets, deferred inflows of resources, liabilities, and deferred outflows of resources. The total assets and deferred outflows of resources, less the total liabilities and deferred inflows of resources, are reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows only in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).

The government-wide financial statements include the District (known as the primary government), Futures, Inc., and six charter schools; Reading Edge Academy, Inc., Samsula Academy, The Chiles Academy, Inc., Richard Milburn Academy of Volusia County, Ivy Hawn

Charter School of the Arts, and Burns Science and Technology Charter School, Inc., for which the District is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government. Futures, Inc. is a separate not-for-profit corporation organized and operated as a direct-support organization under Section 1001.453, Florida Statutes, to provide charitable and educational aid to the District, to promote education, and to encourage research, learning and dissemination of information. The Volusia School Board Leasing Corporation (Leasing Corporation), although also legally separate, was formed to facilitate financing for the acquisition of facilities and equipment. Due to the substantive economic relationship between the District and the Leasing Corporation, the Leasing Corporation has been included as an integral part of the primary government. The government-wide financial statements can be found on pages 2 through 3 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the District's funds can be divided into one of three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains twelve individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the District's most significant funds. The District's major governmental funds are the General Fund, Local Capital Improvement – Capital Projects Fund, and Other Capital Projects – Capital Projects Fund. Data for the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund on page 21 to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 4 through 7 of this report.

Proprietary Funds – Proprietary funds may be established to account for activities in which a fee is charged for services. The District maintains internal service funds to accumulate and allocate costs internally among the District's various functions. The District uses internal service funds to account for its self-insurance programs. Because these services predominantly benefit governmental rather than business-type functions, they have been included with governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The four internal service funds are combined into a single, aggregated presentation in the proprietary funds financial statements. Individual fund data is provided in the form of combining statements elsewhere in this report.

The basic proprietary funds financial statements can be found on pages 8 through 10 of this report.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the primary government. The District maintains Private Purpose Trust Funds to account for the resources of the District's trust and endowment funds for Spruce Creek High, Seabreeze High, and Samsula Scholars. The District also maintains Agency Funds to account for resources of the school internal funds and a voluntary employee benefits program. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary funds financial statements can be found on pages 11 and 12 of this report.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 18a through 18gg of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. The District's total assets plus deferred outflows of resources exceeded its total liabilities and deferred inflows of resources by \$665,217,590 (net position) at June 30, 2017, which was an increase of \$12,028,179 from the previous year.

Net position includes investments in capital assets, primarily school facilities and related furniture, fixtures, and equipment, net of outstanding debt used to acquire or construct capital assets. The remaining net position is divided between those that are restricted and those that are unrestricted. Restricted net assets are those assets net of related liabilities that are restricted to uses specified by third parties, primarily under the terms of debt issues, and Federal and State grantor agencies.

The following is a summary of the District's net position as of June 30, 2017, compared to net position as of June 30, 2016:

Condensed Statement of Net Position		
	Governmental Activities	
	2017	2016
ASSETS		
Current and other assets	\$ 209,129,852	\$ 176,142,142
Capital assets, net	1,045,067,341	1,054,913,585
Total assets	1,254,197,193	1,231,055,727
DEFERRED OUTFLOWS OF RESOURCES	116,759,702	53,863,691
LIABILITIES		
Long-term liabilities	666,769,277	577,952,564
Other liabilities	23,309,358	24,723,041
Total liabilities	690,078,635	602,675,605
DEFERRED INFLOWS OF RESOURCES	15,660,670	29,054,402
NET POSITION		
Net investment in capital assets	750,643,160	759,983,009
Restricted	130,270,771	96,615,507
Unrestricted (deficit)	(215,696,341)	(203,409,105)
Total net position	\$ 665,217,590	\$ 653,189,411

The District reports a \$215,696,341 deficit in unrestricted net position at June 30, 2017, a \$12,287,236 increase in the deficit from the prior year. This is primarily due to an increase in the pension liability, offset with an increase in deferred outflows for pensions and an increase in deferred inflows for pensions. Management has every confidence that the deficit in unrestricted net position does not represent an inability to meet District obligations. Net pension liability of \$286,630,098, compensated absences in the amount of \$56,174,838 and OPEB obligation of \$20,788,645 were the most significant liabilities (claims) against unrestricted assets. Most of the estimated amount of the net pension liability, \$283,376,930, and the compensated absences liability, \$51,891,501 will be due more than one year from the financial statement date and does not require the use of current resources.

Restricted net position represents resources that are subject to external restrictions on how they may be used, such as for capital projects and debt service. The restricted portion of the District's net assets totals \$130,270,771, which represents a 34.8 percent increase from the prior year due to an increase in the unexpended balances in categorical programs, an increase in the Capital Projects Funds fund balance, offset with a decrease in the Debt Service Funds fund balance. The largest portion of the District's net position, \$750,643,160, reflects its investment in capital assets, less any related debt still outstanding. Investment in capital assets, less related debt, decreased \$9,339,849 due a decrease in net capital assets.

Key elements of the changes in the District's net position for the fiscal years ended June 30, 2017, and June 30, 2016, are as follows:

Change in Net Position		
	Governmental Activities	
	2017	2016
Revenues:

Total expenses	607,431,992	572,304,641
Change in net position	12,028,179	43,863,106
Net position - Beginning	653,189,411	609,326,305
Net position - Ending	\$ 665,217,590	\$ 653,189,411

Governmental activities increased the District's net position by \$12,028,179. Key elements are as follows:

- Net Investment in Capital Assets decreased \$9,339,849, due primarily to a decrease in net capital assets of \$9,846,244; a decrease in related debt of \$751,469; a decrease in the net deferred amount on refundings of \$229,030; and a decrease in prepaid insurance costs of \$16,044.
- The deficit unrestricted net position increased \$12,287,236, due to an increase of \$2,101,456 in the unrestricted fund balance of the General Fund; an increase in compensated absences of \$2,352,770; a decrease in Other Postemployment Benefits Payable (OPEB) of \$116,841; an increase in the deferred outflows for pensions of \$63,266,779; a decrease in the deferred inflows for pensions of \$13,251,994; and an increase in the pension liability of \$63,266,779.
- Restricted net position increased \$33,655,264, due primarily to an increase in the fund balance in the Special Revenue Fund - Food Service fund of \$701,754; an increase in the fund balance of the Capital Projects Funds of \$53,042,603; a decrease in the fund balance of the Debt Service Funds of \$21,695,963; and an increase in the amount reserved for State categorical programs of \$1,622,231.

Instruction and instructional support expenses accounted for approximately 62.3 percent of total governmental expenses. Instruction increased by \$12.9 million (4.2 percent) and instructional support expenses increased by \$3.6 million (6.4 percent) from the 2015-16 fiscal year.

Instructional support includes student personnel services, instructional media services, instruction and curriculum development services, instructional staff training services, and instruction related technology.

District administration includes board of education, general administration, facilities acquisition and construction, fiscal services, central services, and administrative technology services. Other includes community services, interest on long-term debt, and unallocated depreciation expense.

FINANCIAL ANALYSIS OF THE INDIVIDUAL FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

Governmental Funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$174,423,641 an increase of \$35,772,081 in comparison with the prior year. The following schedule indicates the fund balance and the total change in fund balance by major fund and other governmental funds (Non-major) as reported in the basic financial statements for the fiscal years ended June 30, 2017 and June 30, 2016

Fund Balance	Governmental Activities		Increase (Decrease)	Percentage Change
	2017	2016		
General Fund	\$ 47,800,396	\$ 44,076,709	\$ 3,723,687	8.4%
Capital Projects Funds:				
Local Capital Improvement	41,763,858	33,822,657	7,941,201	23.5%
Other	69,154,565	24,114,141	45,040,424	186.8%
Other Governmental Funds (Non-major)	15,704,822	13,628,674	2,076,148	15.2%
Total	\$ 174,423,641	\$ 115,642,181	\$ 58,781,460	50.8%

The General Fund is the chief operating fund of the District. During the current fiscal year, the total fund balance of the General Fund increased by \$3,723,687. Key elements are as follows:

- Expenditures exceeded revenues by \$3,965,254, due primarily to an increase in salary expenditures which were partially offset by a decrease in expenditures for employee benefits and an increase in purchased services. Other financing sources totaled \$7,688,941, primarily from transfers from Capital Project Funds to reimburse expenditures in the General Fund for maintenance, property insurance, and equipment leases in the amount of \$7,402,250 and other sources in the amount of \$286,691.

The Local Capital Improvement – Capital Projects Fund, which is used to account for revenues produced by an ad valorem (property) tax levy authorized by the Board to support capital improvements, has a total fund balance of \$41,763,858. The net increase in fund balance during the current year was \$7,941,201, primarily due to an increase in property taxes levied offset by a decrease in transfers out.

The Other Capital Projects – Capital Projects Fund, which is used to account for capital project activity funded through certificates of participation, impact fees, sales tax, and charter school capital outlay, has a total fund balance of \$69,154,565. The net increase in fund balance during the current fiscal year was \$45,040,424. Some of the key factors for this increase was the issuance of Sales Tax Revenue Bonds in the amount of \$33,805,000, an increase in impact fee revenue in the amount of \$1,653,516, an increase in transfers in of \$3,057,000, a decrease in transfers out in the amount of \$18,193,079, which were all offset by an increase in expenditures in the amount of \$18,643,654.

GENERAL FUND BUDGETARY HIGHLIGHTS

Revenue between the original budget and the final amended budget decreased approximately \$2.1 million (0.5 percent decrease), and can be briefly summarized as follows:

- Federal revenue increased by \$0.4 million, primarily due to Medicaid funding.
- State revenue decreased by \$10.6 million. The decrease is primarily due to a decrease in FEFP funding of \$11.3 million, a decrease in School Recognition funds of \$3.2 million, an increase in Lottery funds of \$1.0 million, an increase in various other State sources of \$2.9 million.
- Property tax revenue increased \$1.0 million. The original budget represents 96 percent of the yield from the proposed millage.
- Other local revenue increased by \$7.1 million. The District's after school age child care program generated \$5.2 million of the increase; \$1.5 million was collected through miscellaneous local grants and sources; and \$0.4 million was collected in bus fees, contributing to the increase in other revenues.

Differences between the original budget and the final amended budget for expenditures were approximately \$8.0 million (1.7 percent decrease), the majority of which was in the instruction, school administration, transportation, and maintenance of plant functions which were offset by an increase in the community services function. The final amended budget reflected an increase in fund balance of \$6.5 million for current year operations. Many of the large fluctuations between original and amended budget are from revenues that are not known and measurable at the time of budget adoption. These are amended into the budget during the year. Revenues and the corresponding appropriations are amended into the budget upon receipt. Annual salary increases are amended into the budget once salary negotiations have concluded. Fluctuations between amended budget and actual amounts usually occur from unused grant balances. Certain unexpended funds remain allocated and are re-budgeted in the following fiscal year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. The District's investment in capital assets for its governmental activities as of June 30, 2017, amounted to \$1,045,067,341 (net of accumulated depreciation). This investment in capital assets includes land; construction in progress; improvements other than buildings; buildings and fixed equipment; furniture, fixtures, and equipment; motor vehicles; audio visual materials; and computer software. The total decrease in the District's investment in capital assets for the current fiscal year was 1.0 percent.

Major projects over \$1,000,000 in progress during the 2016-17 fiscal year included the following:

- Pine Trail Elementary – HVAC, lighting & ceiling
- Pierson Elementary – Replacement
- Heritage Middle – Chiller Plant and HVAC upgrades
- Pine Ridge High – Chiller Plant
- DeLand High – Repairs
- Creekside Middle – Central Plant

The following is a summary of capital assets as of June 30, 2017, and June 30, 2016:

Capital Assets (net of depreciation)		
	Governmental Activities	
	2017	2016
Land	\$ 55,298,888	\$ 54,758,411
Construction in progress	11,581,279	2,635,764
Improvements other than buildings	46,638,214	49,013,512

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE GOVERNMENT-WIDE STATEMENT OF NET POSITION
For the Fiscal Year Ended June 30, 2017**

Total Fund Balances - Governmental Funds \$ 174,423,641

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.

Nondepreciable assets	\$ 66,880,167	
Depreciable assets	1,594,043,980	
Less: Accumulated depreciation	(615,856,806)	1,045,067,341

The difference between the reacquisition price and the net carrying amount of refunded debt is reported as a deferred outflow of resources or deferred inflow of resources in the government-wide statements and amortized over the life of the debt, but is not reported in the governmental funds. For the 2016-17 fiscal year, the District reported deferred outflows of resources totaling \$5,301,975 and deferred inflows of resources totaling \$992,164 related to refunded debt. The net amount results in a deferred outflow of resources.

4,309,811

Prepaid insurance costs related to the issuance of debt is reported as an asset in the government-wide statements and amortized over the life of the debt, but is not reported in the governmental funds.

240,653

Internal service funds are used by management to charge the costs of its self-insurance programs to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.

6,955,149

Long-term liabilities, including unamortized premiums, are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. Long-term liabilities at year-end consist of:

Bonds Payable	(42,334,755)	
Certificates of participation payable	(256,639,890)	
Compensated absences payable	(56,174,838)	
Postemployment healthcare benefits payable	(20,788,645)	(375,938,128)

On the statement of net position, the District's proportionate share of the net pension liability of the cost-sharing defined benefit pension plans in which the District participates is reported as a noncurrent liability. Additionally, deferred outflows and deferred inflows of resources related to pensions are also reported in accordance with GASB Statement No. 68.

Net pension liability	(286,630,098)	
Deferred outflows related to pensions	111,457,727	
Deferred inflows related to pensions	(14,668,506)	(189,840,877)

Total Net Position - Governmental Activities \$ 665,217,590

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2017**

Net Change in Fund Balances - Governmental Funds \$ 35,772,081

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of depreciation expense in excess of capital outlays in the current period.

Capital outlay - facilities acquisition and construction:	\$ 27,452,648	
Capital outlay - other capital outlay:	9,432,390	
Less, depreciation expense:	<u>(47,409,596)</u>	(10,524,558)

Capital assets donated to the District during the current period increase net assets on the government-wide statements, but do not provide current financial resources and are not reported as revenues in the governmental funds.

678,314

Refunding gains and losses result from the difference between the reacquisition cost of the refunded debt and the net carrying amount. Refunding gains or losses are amortized over the life of the related debt in the statement of activities.

Deferred amount on refunding, net - current year:	4,309,811	
Deferred amount on refunding, net - prior year:	<u>4,538,841</u>	(229,030)

Prepaid insurance costs relating to the issuance of debt are amortized over the life of the debt and is reported as interest on long-term debt in the statement of activities.

Prepaid Insurance - current year:	240,653	
Prepaid Insurance - prior year:	<u>256,697</u>	(16,044)

Revenues in the statement of activities that do not provide current financial sources are not reported as revenues in the governmental funds.

Unavailable revenue - current year:	-	
Unavailable revenue - prior year:	<u>15,361</u>	(15,361)

Premiums on new debt issues are reported when issued as other financing sources in the governmental funds, but are deferred and amortized as expenses over the life of the debt in the statement of activities.

Unamortized premium - current year:	(33,928,645)	
Unamortized premium - prior year:	<u>(30,204,114)</u>	(3,724,531)

Repayments of long-term debt are expenditures in the governmental funds, but repayments reduce long-term liabilities in the statement of net position.

Bonds payable:	27,721,000	
Certificates of participation payable:	<u>10,560,000</u>	38,281,000

Long-term debt proceeds provide current financial resources to the governmental funds, but issuing debt increases long-term liabilities in the statement of net position.

(33,805,000)

The net change in the liability for postemployment healthcare benefits (OPEB) is reported in the government-wide statements, but not in the governmental fund statements.

Postemployment healthcare benefits payable - current year:	(20,788,645)	
Postemployment healthcare benefits payable - prior year:	<u>(20,905,486)</u>	116,841

Governmental funds report contributions to defined benefit plans as expenditures. However, in the statement of activities, the amount contributed to defined benefit plans reduces future net pension liability and is reported as part of deferred outflows and deferred inflows of resources. In the statement of activities, pension expense is recorded for the District's proportionate share of collective pension expense of the cost-sharing defined benefit plans in which the District participates. Also included in pension expense are amounts required to be amortized in accordance with GASB Statement No. 68.

Deferred outflows related to pensions - current year:	111,457,727	
Deferred outflows related to pensions - prior year:	<u>48,190,948</u>	63,266,779

Pension liability - current year:	(286,630,098)	
Pension liability - prior year:	<u>(199,364,620)</u>	(87,265,478)

Deferred inflows related to pensions - current year:	(14,668,506)	
Deferred inflows related to pensions - prior year:	<u>(27,920,500)</u>	13,251,994

Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. The change in net position of internal service funds is reported with governmental activities.

(1,406,058)

In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds, expenditures are recognized based on the amounts actually paid for compensated absences. This is the net amount of compensated absences earned in excess of the amount paid in the current period.

District School Board of Volusia County, Florida
Notes to the Financial Statements
June 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The District School Board of Volusia County (the District) has direct responsibility for operation, control, and supervision of District schools, and is considered a primary government for financial reporting. The District is part of the Florida system of public education. The governing body of the District is the Volusia County District School Board (Board), which is composed of five elected members. The appointed Superintendent of Schools is the executive officer of the District. Geographic boundaries of the District correspond with those of Volusia County.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standard's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any entities for which the District is financially accountable and other organizations that the nature and significance of their relationship with the District are such that exclusion would cause the District's basic financial statements to be misleading or incomplete

The District considered its charter school operated by Easter Seals Educational Services, Inc., for inclusion in its reporting entity; however, because Easter Seals Educational Services, Inc. is a component unit of a nongovernmental not-for-profit organization, it does not meet the criteria for inclusion as a component unit of the District. The charter school's financial statements were audited by an independent certified public accountant and are filed in the District's administrative office.

Based on the application of the above criteria, the following component units are included within the District's reporting entity:

Blended Component Unit. The Volusia School Board Leasing Corporation (the Corporation) was formed to facilitate financing for the acquisition of facilities and equipment. Due to the substantive economic relationship between the District and the Corporation and their shared governing body, the financial activities of the Corporation are included in the accompanying basic financial statements. Separate financial statements for the Corporation are not published.

Discretely Presented Component Units. The component unit columns in the basic financial statements include the financial data of the District's other component units. These component units consist of Futures, Inc. (Futures), and seven of the District's charter schools: Reading Edge Academy, Inc., Samsula Academy, The Chiles Academy, Inc., Richard Milburn Academy of Volusia County, Ivy Hawn Charter School of the Arts, and Burns Science and Technology Charter School, Inc.

Futures is a separate not-for-profit corporation organized and operated as a direct-support organization under Section 1001.453, Florida Statutes, to provide charitable and educational aid to the District, to promote education, and to encourage research, learning and dissemination of information. Futures is considered to be a component unit of the District, because the District must approve all members of Futures' Board, and the District has the ability to impose its will on Futures. It is considered to be a discretely presented component unit, because the two boards are not the same and Futures does not provide services entirely or nearly entirely to the District. An audit of the direct-support organization's financial statements for the fiscal year ended June 30, 2017, was conducted by an independent certified public accountant and is filed in the District's administrative office.

The District's charter schools are separate not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not for Profit Corporation Act, and Section 1002.33, Florida Statutes. The charter schools operate under a charter approved by their sponsor, the District School Board of Volusia County, and are considered to be component units of the District since they are fiscally dependent on the District for their tax levy and the majority of

their budget. In addition, they create a financial burden on the District because the charter schools' full-time equivalent (FTE) student enrollment is the basis for the District to provide funding to the charter schools.

As a result of the closure of Richard Milburn Academy Middle School of Volusia County which ended June 30, 2016, District's management has excluded this charter school, which was reported as a component unit during the prior fiscal year. The net position of the component units as a whole has been adjusted as follows:

Net Position – Beginning of the year, as previously reported:	\$7,484,716
Adjustment for school closure:	<u>(6,655)</u>
Net Position – Beginning of the year, restated:	<u>\$7,478,061</u>

Audits of charter schools' financial statements are conducted by independent certified public accountants. Separate financial statements for the charter schools are filed in the District's administrative office.

B. Basis of Presentation

Government-wide Financial Statements – Government-wide financial statements, including the statement of net position and the statement of activities, present information about the School District as a whole. These statements include the nonfiduciary financial activity of the primary government and its component units.

Government-wide financial statements are prepared using the economic resources measurement focus. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Eliminations have been made to minimize the double-counting of internal service fund activities. The effect of interfund activities has been eliminated from the government-wide statements, except for interfund services provided and used.

Fund Financial Statements – Fund financial statements report detailed information about the District in the governmental, proprietary, and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Nonmajor funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, a reconciliation is presented with each of the governmental fund financial statements.

The District reports the following major governmental funds:

General Fund – to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.

Local Capital Improvement - Capital Projects Fund – to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, leases on relocatable educational facilities, and debt service payments on certificates of participation.

District School Board of Volusia County, Florida
Notes to the Financial Statements
June 30, 2017

Other Capital Projects – Capital Projects Fund – to account for financial resources to be used for the acquisition or construction or major educational facilities. The larger funds included in this category are certificates of participation and sales tax.

Additionally the District reports the following proprietary and fiduciary fund types:

Internal Service Funds – to account for the District's individual self-insurance programs.

Private-Purpose Trust Funds – to account for the Spruce Creek High, Seabreeze High, and Samsula Scholars scholarship trust funds.

Agency Funds – to account for resources of the school internal funds that are used to administer moneys collected at the several schools in connection with school, student athletic, class, and club activities and to account for resources that are held for a voluntary employee benefits program.

C. Basis of Accounting

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are prepared using the accrual basis of accounting, as are the proprietary funds and fiduciary funds financial statements. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are prepared utilizing the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become susceptible to accrual, that is, both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Significant revenues susceptible to accrual include ad valorem taxes, reimbursable-type grants, and interest on investments. The District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Agency (Fiduciary) Funds are purely custodial in nature (assets equal liabilities) and, as such, do not have a measurement focus.

In applying the "susceptible to accrual" concept to revenues from Federal and State sources, the legal contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of revenues. In one, monies must be expended for the specific purpose before the District will receive any amounts; therefore, revenues are recognized based upon the incurrence of the expenditures. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed legal and contractual requirements. These resources are reflected as revenues at the time of receipt or earlier if the "susceptible to accrual" criteria are met. In all cases, monies received before the revenue recognition criteria have been met, are reported as unearned revenue.

District School Board of Volusia County, Florida
Notes to the Financial Statements
June 30, 2017

The Proprietary Funds are prepared under the economic resources measurement focus and the accrual basis of accounting. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for workers' compensation, general liability, and property insurance. The principal operating expenses include salaries and benefits for employees, insurance claims, and excess coverage insurance. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Net position unrestricted in the internal service funds are designated for future losses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed. When both assigned and unassigned resources are available for use in governmental fund financial statements, it is the District's policy to use assigned resources first, and then unassigned resources as they are needed.

The charter schools are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities.

Futures is accounted for under the not-for-profit basis of accounting and uses the accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when incurred.

D. Deposits and Investments

The amount reported as cash and cash equivalents consists of cash on hand, demand deposits, and cash placed with the State Board of Administration (SBA) Florida PRIME fund, created pursuant to Section 218.405, Florida Statutes. The statement of cash flows considers cash and cash equivalents as cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Under this definition, the District considers amounts invested in Florida PRIME to be cash equivalents.

Cash deposits are held by banks qualified as public depositories under Florida law, and at June 30, 2017, the bank balances totaled \$29,380,919. All deposits are insured by Federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

At June 30, 2017, the District reported as cash equivalents \$23,160,930 of moneys held in Florida PRIME administered by SBA, pursuant to Section 215.47, Florida Statutes. The District's investments in Florida PRIME, which SBA indicates is a Securities and Exchange Commission Rule 2a7-like external investment pool, as of June 30, 2017, are similar to money market funds in which shares are owned in the fund rather than the underlying investments.

Investments consist of amounts placed with SBA in a debt service account and those made locally.

The District's investments in the SBA Debt Service accounts are administered by the State Board of Education (SBE) to provide for debt service payments on bonded debt issued by SBE for the benefit of the District. Disclosures for the debt service accounts are included in the notes to the financial statements of the State of Florida's Comprehensive Annual Financial Report.

Investments made locally consist of United States Treasury Obligations, Obligations of United States Government Agencies and Instrumentalities, commercial paper, municipal bonds, corporate notes, an intergovernmental investment pool, and money market funds and are reported at fair value. Agency funds report Florida PRIME as cash equivalents. Types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

E. Inventories

Inventories consist of expendable supplies held for consumption in the course of District operations. Warehouse, transportation, and maintenance inventories are valued on a moving average basis. Purchased food inventories at the schools and warehouse are valued at cost on the first-in, first-out basis. The United States Department of Agriculture surplus commodities are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used rather than when purchased.

F. Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net assets but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000. Such assets are recorded at historical cost or estimated historical costs if purchased or constructed. Donated assets are recorded at acquisition value at the time of donation. Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Improvements Other than Buildings	20 years
Buildings and Fixed Equipment	40 years
Furniture, Fixtures and Equipment	5 years
Motor Vehicles	10 years
Audio Visual Materials	3 years
Computer Software	5 years

Land and construction in progress are not depreciated. Current-year information relative to changes in capital assets is described in a subsequent note.

G. Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS and the HIS fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, defined benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

H. Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position. Bond and certificates of participation premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the debt using the straight-line method. Bonds and certificates of participation payable are reported net of the applicable bond premium or discount.

District School Board of Volusia County, Florida
Notes to the Financial Statements
June 30, 2017

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and related premiums are reported as other financing sources while discounts on debt issuances and payments to refunded bond escrow agents are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability is reported in the governmental fund financial statements only for the current portion of compensated absences expected to be paid using expendable available resources. The liability is liquidated with expendable available resources, and expenditures are recognized as payments come due each period upon the occurrence of relevant events, such as employee resignations and retirements.

Changes in long-term debt for the current year are reported in a subsequent note.

I. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of net position has a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until that time.

The District has two items that qualify for reporting as deferred outflows of resources, both reported in the government-wide statement of net position. The first item is the net carrying amount of debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or new refunding debt. The second item is the deferred outflow related to pensions. The deferred outflows related to pensions are an aggregate of items related to pensions as calculated in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. The deferred outflows related to pensions will be recognized as either pension expense or a reduction in the net pension liability in future reporting years.

Details on the composition of deferred outflows related to pensions are reported in a subsequent note.

In addition to liabilities, the statement of net position has a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future period(s) and will not be recognized as an inflow of resources (revenue) until that time.

The District has two items that qualify for reporting as deferred inflows of resources in the government-wide statement of net position. In the government-wide statement of net position, the first item is the deficit net carrying amount of debt refunding. The amount is the difference between the reacquisition price and the net carrying amount of the old debt, resulting in a deficit net carrying amount. The amount is deferred and amortized over the shorter of the life of the refunded debt or new refunding debt. The second item is the deferred inflow related to pensions. The deferred inflows related to pensions are an aggregate of items related to pensions as calculated in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. The deferred inflows related to pensions will be recognized as a reduction to pension expense in future reporting years.

Details on the composition of deferred inflows related to pensions are reported in a subsequent note.

J. State Revenue Sources

Revenues from State sources for current operations are primarily from the Florida Education Finance Program administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of five months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. State Board of Education rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same educational programs. The Department generally requires that educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental funds financial statements for the balance of educational program resources.

The State allocates gross receipt taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

K. District Property Taxes

The Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Volusia County Property Appraiser and property taxes are collected by the Volusia County Finance Department.

The School Board adopted the 2016 tax levy on September 13, 2016. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment. Taxes become an enforceable lien on January 1.

Taxes become delinquent on April 1 of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Volusia County Finance Department at fiscal year-end but not yet remitted to the District.

Millages and taxes levied for the current year are presented in a subsequent note.

L. School Capital Outlay Surtax (Local Sales Tax)

The citizens of Volusia County, on October 9, 2001, approved a one-half cent sales tax authorized under Section 212.055(6), Florida Statutes. The surtax levy commenced on January 1, 2002, and was in effect for a period of fifteen years through December 31, 2016. The citizens of Volusia County, on August 26, 2014, approved an extension of the one-half cent sales tax that expires on December 31, 2016. The extension is authorized for another fifteen years beginning January 1, 2017.

M. Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

N. Budgetary Compliance and Accountability

The Board follows procedures established by Chapter 1001.51, Florida Statutes, and State Board of Education Administrative Rules, Chapter 6A-1, in establishing budget balances for governmental funds as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.
- The legal level of control is at the functional level (e.g., instruction, pupil personnel services, and school administration) with control exercised at the object level (e.g., salaries, purchased services, and capital outlay) within each function. Appropriations are amended accordingly by resolution at any School Board meeting prior to the due date of the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

Total Investments measured at fair value:	\$ 176,418,371			

⁽¹⁾ Reported as cash and cash equivalents in the financial statements. ⁽²⁾ Based on amortized cost.

⁽³⁾ Administered by the State Board of Education

The District's recurring fair value measurements are valued using quoted prices for similar assets in active markets or for identical or similar assets in inactive markets (Level 2 inputs). Investments using net asset value or amortized cost, which approximate fair value, have not been classified in the fair value hierarchy.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District's investment policy limits the length of investments to the type of investments up to a maximum of five and a half years and, to the extent possible, investment of current operating funds to twelve months. The investments in Florida PRIME are reported at fair value, which is amortized cost.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. District policy allows for the following investments:

Investments in negotiable direct obligations of the United States Government, Governmental agencies, and Federal instrumentalities with maturities less than five and a half years. As of June 30, 2017, the District had investments in United States Treasury securities with a fair value of \$50,504,787 and in obligations of the United States Government agencies and Federal instrumentalities with a fair value of \$17,372,808. Obligations of the United States Government agencies and instrumentalities were rated "AA+" and "A-1+" by Standard & Poor's.

Investments in commercial paper with maturities less than 270 days. As of June 30, 2017, the District had investments in commercial paper with a fair value of \$21,009,352. Investments in commercial paper were rated "A-1" and "A-1+" by Standard & Poor's.

Investments in municipal bonds with maturities less than five and a half years. As of June 30, 2017, the District had investments in municipal bonds with a fair value of \$801,971. Investments in municipal bonds were rated "AA" by Standard & Poor's.

Investments in corporate notes with maturities less than five and a half years. As of June 30, 2017, the District had investments in corporate notes with a fair value of \$6,385,765. Investments in corporate notes were rated "AAA", "AA-", "A-", "A", "A+", "AA+" and "BBB+" by Standard & Poor's.

Investments in an intergovernmental investment pool rated "AAAm" by Standard & Poor's. As of June 30, 2017, the District had investments in an intergovernmental investment pool rated "AAAm" by Standard & Poor's with a fair value of \$56,527,706.

Investments in money market mutual funds that are rated "AAAm" by Standard & Poor's. As of June 30, 2017, the District had investments in Fidelity Institutional Government with a fair value of \$600,394, which is rated "AAAm" by Standard & Poor's.

District School Board of Volusia County, Florida
Notes to the Financial Statements
June 30, 2017

Investments in the SBA Debt Service accounts totaling \$54,658 are administered by SBA to provide for debt service payments on bonded debt issued by the State Board of Education for the benefit of the District. The District has no formal policy for managing interest rate risk or credit risk for this account, but relies on policies developed by SBA. Disclosures for these debt service accounts are included in the notes to the basic financial statements of the State of Florida's Comprehensive Annual Financial Report.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. District policies require that all securities be held in the District's name in custodial accounts by a third party custodian. All securities were held in custodial accounts in the District's name by a third party custodial bank.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. Composition of investment portfolio, calculated based on the original cost, is limited by District policy as follows:

- United States government securities are limited to 100 percent of the portfolio;
- Federal instrumentalities are limited to 75 percent of the portfolio and a maximum of 40 percent with any single issuer.
- Commercial paper is limited to 35 percent of the portfolio and a maximum of 5 percent with any single issuer.
- Corporate notes is limited to 25 percent of the portfolio and a maximum of 5 percent with any single issuer.
- Municipals are limited to 25 percent of the portfolio and a maximum of 5 percent with any single issuer.
- Intergovernmental investment pools are limited to 25 percent of the portfolio.
- Interest bearing time deposit or savings accounts are limited to 25 percent of the portfolio and a maximum of 15 percent with any single issuer; registered investment companies (money market mutual funds) are limited to 50 percent of the portfolio and a maximum of 25 percent with any single issuer.
- Florida local government surplus trust funds (SBA) are limited to 25 percent of the portfolio.

Investments in any one issuer that represent five percent or more of the District's investments are reported below and were in investments in the General Fund, Local Capital Improvement Funds - Capital Projects Fund, Other Capital Projects – Capital Projects Fund, and Internal Service Funds. As of June 30, 2017. The District had the following issuer concentrations based on fair value:

District School Board of Volusia County, Florida

The District's capital assets serve several functions; accordingly, depreciation expense, which totaled \$47,409,596 was not charged to functions but is separately reported on the statement of activities.

5. CERTIFICATES OF PARTICIPATION

The District entered into a financing arrangement on September 1, 1999, which was characterized as a lease-purchase agreement, with the Leasing Corporation, whereby the District secured financing for the acquisition and construction of facilities and equipment in the total amount of \$65,685,000. The financing was accomplished through the issuance of Certificates of Participation, Series 1999, to be repaid from the proceeds of rents paid by the District. The District entered into a crossover refunding arrangement on March 10, 2005, to advance refund the Certificates of Participation, Series 1999, which matured on or after August 1, 2010. On the crossover date, August 1, 2009, the crossover transaction met the definition of an in-substance defeasance and the liability for the Refunded Series 1999 Certificates was removed from the District's government-wide financial statements. The refunding issue was made pursuant to the Master Lease-Purchase Agreement dated August 1, 1991, and the Supplemental Trust Agreement dated March 1, 2005. The refunding was accomplished through the issuance of Refunding Certificates of Participation, Series 2005B, totaling \$47,180,000. The District entered into a refunding arrangement on May 5, 2015 to refund, on a current basis, the Certificates of Participation, Series 2005B, maturing on and after August 1, 2016. The refunding transaction met the definition of a redemption and the liability for the Refunded Series 2005B Certificates was removed from the District's government-wide financial statements. The refunding issue was made pursuant to the Master Lease-Purchase Agreement dated August 1, 1991, and the Supplemental Trust Agreement dated May 1, 2015. The refunding was accomplished through the issuance of Refunding Certificates of Participation, Series 2015A, totaling \$28,210,000.

District School Board of Volusia County, Florida
Notes to the Financial Statements
June 30, 2017

As a condition of the financing arrangement, the District has given a ground lease on District property to the Leasing Corporation, with a rental fee of \$10 per year. The term of the original lease commenced on September 1, 1999, and runs until the earlier of (a) the date on which the Series 2015A Certificates (or any Certificates issued to refund the Series 2015A Certificates) have been paid in full, or (b) October 30, 2034. The properties covered by the ground lease are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the lease and to provide for the rent payments through the term, the District may be required to surrender the sites included under the Ground Lease Agreement for the benefit of the securers of the Certificates for a period of time specified by the arrangement which may be up to approximately 30 years from the date of the inception of the arrangement.

The District properties included in the ground lease under this arrangement, and supplements thereto, include Creekside Middle School, Maintenance Facility, Campbell Middle School, Seabreeze High School, and Deltona High School.

The District entered into a financing arrangement on June 30, 2005, which was characterized as a lease-purchase agreement, with the Leasing Corporation, whereby the District secured financing for the acquisition, construction and installation of certain education facilities in the total amount of \$39,010,000. The financing was accomplished through the issuance of Certificates of Participation, Series 2005C, to be repaid from the proceeds of rents paid by the District. The District entered into a refunding arrangement on May 28, 2014 to refund, on an advanced basis, the Certificates of Participation, Series 2005C, maturing on and after August 1, 2016. The refunding transaction met the definition of an in-substance defeasance and the liability for the Refunded Series 2005C Certificates was removed from the District's government-wide financial statements. The refunding issue was made pursuant to the Master Lease-Purchase Agreement dated August 1, 1991, and the Supplemental Trust Agreement dated May 1, 2014. The refunding was accomplished through the issuance of Refunding Certificates of Participation, Series 2014A, totaling \$29,760,000.

As a condition of the financing arrangement, the District has given a ground lease on District property to the Leasing Corporation, with a rental fee of \$10 per year. The term of the original lease commenced on June 1, 2005, and runs until the earlier of (a) the date on which the Series 2014A Certificates (or any Certificates issued to refund the Series 2014A Certificates) have been paid in full, or (b) June 30, 2030. The properties covered by the ground lease are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the lease and to provide for the rent payments through the term, the District may be required to surrender the sites included under the Ground Lease Agreement for the benefit of the securers of the Certificates for a period of time specified by the arrangement which may be up to approximately 30 years from the date of the inception of the arrangement.

The District properties included in the ground lease under this arrangement include Osteen Elementary School, Cypress Creek Elementary School, and the Community Learning Center East.

The District entered into a financing arrangement on January 31, 2006, which was characterized as a lease-purchase agreement, with the Leasing Corporation, whereby the District secured financing for the acquisition, construction and installation of certain education facilities in the total amount of \$135,175,000. The financing was accomplished through the issuance of Certificates of Participation, Series 2006A, to be repaid from the proceeds of rents paid by the District. The District entered into a refunding arrangement on June 25, 2014 to refund, on an advanced basis, the Certificates of Participation, Series 2006A, maturing on and after August 1, 2016. The refunding transaction met the definition of an in-substance defeasance and the liability for the Refunded Series 2006A Certificates was removed from the District's government-wide financial statements. The refunding issue was made pursuant to the Master Lease-Purchase Agreement dated August 1, 1991, and the Supplemental Trust Agreement dated June 1, 2014. The refunding was accomplished through the issuance of Refunding Certificates of Participation, Series 2014B, totaling \$113,045,000.

Notes to the Financial Statements
June 30, 2017

As a condition of the financing arrangement, the District has given a ground lease on District property to the Leasing Corporation, with a rental fee of \$10 per year. The term of the original lease commenced on January 1, 2006, and runs until the earlier of (a) the date on which the Series 2014B Certificates (or any Certificates issued to refund the Series 2014B Certificates) have been paid in full, or (b) June 30, 2031. The properties covered by the ground lease are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the lease and to provide for the rent payments through the term, the District may be required to surrender the sites included under the Ground Lease Agreement for the benefit of the securers of the Certificates for a period of time specified by the arrangement which may be up to approximately 30 years from the date of the inception of the arrangement.

The District properties included in the ground lease under this arrangement include University High School and River Springs Middle School.

The District entered into a financing arrangement on April 25, 2007, which was characterized as a lease-purchase agreement, with the Leasing Corporation, whereby the District secured financing for the acquisition, construction, and installation of certain education facilities in the total amount of \$97,975,000. The financing was accomplished through the issuance of Certificates of Participation, Series 2007, to be repaid from the proceeds of rents paid by the District. The District entered into a refunding arrangement on February 10, 2016 to refund, on an advanced basis, the Certificates of Participation, Series 2007, maturing on and after August 1, 2018. The refunding transaction met the definition of an in-substance defeasance and the liability for the Refunded Series 2007 Certificates was removed from the District's government-wide financial statements. The refunding issue was made pursuant to the Master Lease-Purchase Agreement dated August 1, 1991, and the Supplemental Trust Agreement dated February 1, 2016. The refunding was accomplished through the issuance of Refunding Certificates of Participation, Series 2016A, totaling \$73,150,000.

As a condition of the financing arrangement, the District has given a ground lease on District property to the Leasing Corporation, with a rental fee of \$10 per year. The term of the original lease commenced on April 1, 2007, and runs until the earlier of (a) the date on which the Series 2016A Certificates (or any Certificates issued to refund the Series 2016A Certificates) have been paid in full, or (b) July 31, 2037. The properties covered by the ground lease are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the lease and to provide for the rent payments through the term, the District may be required to surrender the sites included under the Ground Lease Agreement for the benefit of the securers of the Certificates for a period of time specified by the arrangement which may be up to approximately 30 years from the date of the inception of the arrangement.

The District properties included in the ground lease under this arrangement, amended in June 2009, include Holly Hill School, Ormond Beach Middle School, Pride Elementary School, and Hurst Elementary School replacement.

The lease payments are payable by the District, semiannually, on August 1 and February 1. A summary of interest rates is presented as follows:

<u>Certificate</u>	<u>Remaining Interest Rates</u>
Series 2014A	3.000%
Series 2014B	5.000%

The various bonds were issued to finance capital outlay projects of the District. The following is a description of bonded debt issues:

District School Board of Volusia County, Florida
Notes to the Financial Statements
June 30, 2017

State School Bonds

These bonds are issued by the State Board of Education on behalf of the District. The bonds mature serially and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of Debt Service Fund resources, and compliance with reserve requirements are administered by the State Board of Education and the State Board of Administration.

Sales Tax Revenue Bonds

The School Board issued Sales Tax Revenue Bonds, Series 2016 on November 17, 2016 totaling \$33,805,000. These bonds are authorized by Chapter 1001, Florida Statutes, and Chapter 212, Florida Statutes. These bonds are secured by a pledge of proceeds received by the District from the levy and collection of a one-half cent discretionary sales surtax pursuant to Section 212.055(6), Florida Statutes. Proceeds of the bonds were used to finance construction of new school facilities, renovations of existing school facilities and technology.

The District pledged a total of \$48,058,575 of discretionary sales surtax revenues (sales tax revenues) in connection with the Sales Tax Revenue Bond issues described above. During the 2016-17 fiscal year, the District recognized sales tax revenues totaling \$40,918,201 and expended \$27,438,447 (67.1 percent) of these revenues for debt service directly collateralized by these revenues. The pledged sales tax revenues are committed until final maturity of the debt, or October 1, 2031.

Annual requirements to amortize all bonded debt outstanding as of June 30, 2017, are as follows:

7. DEFEASED DEBT

In prior years, the District defeased Certificates of Participation, Series 2007. Refunding Certificates of Participation, Series 2016A, were issued and the proceeds were used to purchase U.S. Government Securities that were placed in an irrevocable trust with an escrow agent to provide for all future debt service payments. These investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called on August 1, 2017. For financial reporting purposes, the debt has been considered defeased and therefore removed as a liability from the financial statements. As of June 30, 2017, the total amount of defeased debt outstanding but removed from the District's financial statements was \$2,945,000.

8. CHANGES IN LONG-TERM LIABILITIES

Notes to the Financial Statements
June 30, 2017

For the governmental activities, compensated absences, pensions, and postemployment healthcare benefits are generally liquidated with resources of the General Fund. The estimated insurance claims payable are generally liquidated with resources of the internal service funds as discussed in Note 17.

9. FUND BALANCE REPORTING

There are two major types of fund balances, which are nonspendable and spendable. Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal (corpus) of an endowment fund. The District has inventories and prepaid items that are considered nonspendable. The District does not have any nonspendable funds related to endowments.

In addition to the nonspendable fund balances, spendable fund balances are classified based on a hierarchy of spending constraints.

- **Restricted:** Fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.
- **Committed:** Fund balances that contain self-imposed constraints of the government from its highest level of decision making authority.
- **Assigned:** Fund balances that contain self-imposed constraints of the government to be used for a particular purpose. The Superintendent is authorized to assign fund balances pursuant to Board Policy 701.
- **Unassigned:** Fund balance of the General Fund that is not constrained for any particular purpose.

The District has classified its fund balances with the following hierarchy:

NONSPENDABLE: The District has inventories totaling \$2,797,786 and prepaid amounts totaling \$8,578 that are classified as nonspendable.

SPENDABLE: The District has classified the spendable fund balances as *Restricted*, *Assigned*, and *Unassigned* and considered each to have been spent when expenditures are incurred.

- **Restricted for State Required Carryover Programs, Food Service, Debt Service, and Capital Projects:**

Federal laws, Florida Statutes and local ordinances require that certain revenues be specifically designated for the purposes of State required carryover programs, food service, debt service, and capital projects. The funds have been included in the Restricted category of fund balance. Restricted fund balances total \$128,601,695 and represented \$3,647,526 in State required carryover programs, \$12,314,775 in food service, \$1,406,862 in debt service and \$111,232,532 in capital projects.

- **Assigned for State and Local Programs and Subsequent Year's Budget:**

The District has set aside certain spendable fund balances to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget and for State and local programs. At year end, the assigned fund balance is \$1,654,700 for the subsequent year's appropriated budget and \$13,433,513 for State and local programs.

- **Unassigned:**

The unassigned fund balance in the General Fund is \$27,927,369.

The Board has established a policy (Board Policy 722) requiring a minimum fund balance of 3 percent with a desirability of 5 percent, calculated in accordance with Section 1011.051, Florida Statutes. At June 30, 2017, the unassigned fund balance for the General Fund was \$27,927,369, or 6.2 percent of total General Fund revenues

10. ENCUMBRANCES

Appropriations in governmental fund types are encumbered upon issuance of purchase orders for goods and/or services. Even though appropriations lapse at the end of the fiscal year, unfilled purchase orders of the current year are carried forward and the next year's appropriations are likewise encumbered. The District uses encumbrance accounting for recording purchase order commitments. At June 30, 2017, the District has recorded \$40,116,167 in encumbrances as follows: \$3,230,132 for the General Fund; \$12,152,575 for the Local Capital Improvement – Capital Projects Fund; \$22,456,082 for the Other Capital Projects – Capital Projects Fund; and \$2,277,378 for the Nonmajor Governmental Funds.

14. FLORIDA RETIREMENT SYSTEM

General Information about the Florida Retirement System (FRS)

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree Health Insurance Subsidy (HIS) Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility,

contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing, multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' Web site (www.dms.myflorida.com).

The District's pension expense totaled \$33,763,474 for the fiscal year ended June 30, 2017.

FRS Pension Plan

Plan Description. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with DROP for eligible employees. The general classes of membership are as follows:

- *Regular Class* – Members of the FRS who do not qualify for membership in the other classes.
- *Elected County Officers Class* – Members who hold specified elective offices in local government.
- *Senior Management Service Class (SMSC)* – Members in senior management level positions.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Members of the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the 5 highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

Notes to the Financial Statements
June 30, 2017

<u>Class, Initial Enrollment, and Retirement Age/Years of Service</u>	<u>% Value</u>
<i>Regular Class members initially enrolled before July 1, 2011</i>	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
<i>Regular Class members initially enrolled on or after July 1, 2011</i>	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63
Retirement at age 67 or with 35 years of service	1.65
Retirement at age 68 or with 36 or more years of service	1.68
<i>Elected County Officers</i>	3.00
<i>Senior Management Service Class</i>	2.00

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2016-17 fiscal year were as follows:

<u>Class</u>	<u>Percent of Gross Salary</u>	
	<u>Employee</u>	<u>Employer (1)</u>
FRS, Regular	3.00	7.52
FRS, Elected County Officers	3.00	42.47
FRS, Senior Management Service	3.00	21.77
DROP - Applicable to		
Members from All of the Above Classes	0.00	12.99
FRS, Reemployed Retiree	(2)	(2)

Notes: (1) Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.

(2) Contribution rates are dependent upon retirement class in which reemployed.

The District's contributions to the Plan totaled \$17,848,662 for the fiscal year ended June 30, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2017, the District reported a liability of \$173,789,159 for its proportionate share of the Plan's net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. The District's proportionate share of the net pension liability was based on the District's 2015-16 fiscal year contributions relative to

the 2015-16 fiscal year contributions of all participating members. At June 30, 2016, the District's proportionate share was 0.6883 percent, which was a decrease of 0.0682 percent from its proportionate share measured as of June 30, 2015.

For the fiscal year ended June 30, 2017, the District recognized pension expense of \$24,677,050 related to the Plan. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Description</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 13,306,635	\$ 1,618,094
Change of assumptions	10,513,724	-
Net difference between projected and actual earnings on FRS pension plan investments	44,922,379	-
Changes in proportion and differences between District FRS contributions and proportionate share of contributions	277,179	9,379,997
District FRS contributions subsequent to the measurement date	17,848,662	-
Total	\$ 86,868,579	\$ 10,998,091

The deferred outflows of resources related to pensions, totaling \$17,848,662, resulting from District contributions to the Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows

<u>Fiscal Year Ending June 30</u>	<u>Amount</u>
2018	\$ 7,423,973
2019	7,423,973
2020	24,937,505
2021	16,761,131
2022	1,211,053
Thereafter	264,191

Actuarial Assumptions. The total pension liability in the July 1, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary Increases	3.25 percent, average, including inflation
Investment rate of return	7.60 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

District School Board of Volusia County, Florida
Notes to the Financial Statements
June 30, 2017

The actuarial assumptions used in the July 1, 2016, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (1)	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.0%	3.0%	3.0%	1.7%
Fixed Income	18.0%	4.7%	4.6%	4.6%
Global Equity	53.0%	8.1%	6.8%	17.2%
Real Estate (Property)	10.0%	6.4%	5.8%	12.0%
Private Equity	6.0%	11.5%	7.8%	30.0%
Strategic Investments	12.0%	6.1%	5.6%	11.1%
Total	100.0%			
Assumed inflation - Mean		2.6%		1.9%

Note: (1) As outlined in the Plan's investment policy

Discount Rate. The discount rate used to measure the total pension liability was 7.60 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return

Sensitivity of the District's Proportionate Share of the Net Position Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.60 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.60 percent) or 1 percentage-point higher (8.60 percent) than the current rate:

	1% Decrease 6.60%	Current Discount Rate 7.60%	1% Increase 8.60%

Payables to the Pension Plan. At June 30, 2017, the District reported a payable of \$1,389,847 for the outstanding amount of contributions to the Plan required for the fiscal year ended June 30, 2017.

HIS Pension Plan

Plan Description. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Division of Retirement within the Florida Department of Management Services.

Benefits Provided. For the fiscal year ended June 30, 2017, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2017, the contribution rate was 1.66 percent of payroll pursuant to section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding 3 years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$5,168,103 for the fiscal year ended June 30, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2017, the District reported a net pension liability of \$112,840,939 for its proportionate share of the HIS Plan's net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. The District's proportionate share of the net pension liability was based on the District's 2015-16 fiscal year contributions relative to the total 2015-16 fiscal year contributions of all participating members. At June 30, 2016, the District's proportionate share was 0.9682 percent, which was a decrease of 0.0285 from its proportionate share measured as of June 30, 2015.

For the fiscal year ended June 30, 2017, the District recognized pension expense of \$9,086,424 related to the HIS Plan. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

The deferred outflows of resources related to pensions, totaling \$5,168,103, resulting from District contributions to the HIS Plan subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Fiscal Year Ending June 30</u>	<u>Amount</u>

2018	2,845,836
2019	2,834,972
2020	2,829,757
2021	2,504,091
Thereafter	1,890,138

Actuarial Assumptions. The total pension liability in the July 1, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary Increases	3.25 percent, average, including inflation
Municipal Bond Rate	2.85 percent

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

The actuarial assumptions used in the July 1, 2016, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

Discount Rate. The discount rate used to measure the total pension liability was 2.85 percent, which is a reduction from 3.80 percent used at the preceding measurement date. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index

FRS – Defined Contribution Pension Plan

The District contributes to the FRS Investment Plan (Investment Plan), a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the SBA, and is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report. Service retirement benefits are based upon the value of the member's account upon retirement.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Allocations to the investment member's accounts during the 2016-17 fiscal year were as follows:

<u>Class</u>	<u>Percent of</u> <u>Gross</u> <u>Compensation</u>
FRS, Regular	6.30
FRS, Elected County Officers	11.34
FRS, Senior Management Service	7.67

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense

account for up to 5 years. If the employee returns to FRS-covered employment within the 5-year period, the employee will regain control over their account. If the employee does not return within the 5-year period, the employee will forfeit the accumulated account balance. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of Investment Plan members. For the fiscal year ended June 30, 2017, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$3,410,004 for the fiscal year ended June 30, 2017.

Payables to the Defined Contribution Pension Plan. At June 30, 2017, the District reported a payable of \$334,639 for the outstanding amount of contributions to the Investment Plan required for the fiscal year ended June 30, 2017.

15. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Plan Description – The Other Postemployment Benefits Plan (OPEB) is a single-employer defined benefit plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees and eligible dependents who retire from the District may continue to participate in the District's fully insured health and hospitalization plan for medical and prescription drug coverage. The District subsidizes the premium rates paid by retirees by allowing them to participate in the plans at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. The rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees. Additionally, if a retiree participates in a medical plan they receive a monthly Health Insurance Subsidy (HIS) from the District in the amount of \$0.50 per year of service (maximum \$20) until age 65. Retirees are required to enroll in the Federal Medicare programs parts A and B for their primary coverage as soon as they are eligible. OPEB does not issue a stand-alone report and is not included in the report of a public employee retirement system or other entity.

Funding Policy - For OPEB, contribution requirements of the District are established and may be amended through recommendations of the Insurance Committee and action from the Board. The District has not advance-funded or established a funding methodology for the annual OPEB costs or the net OPEB obligation. As of July 1, 2015, there were 349 retirees and 52 eligible dependents receiving postemployment healthcare benefits. For the 2016-17 fiscal year the District provided required contributions of \$1,922,877 toward the annual OPEB costs, comprised of payments made on behalf of retirees for claims expenses, retention costs, and net of retiree contributions totaling \$3,198,323, which represents 1.0 percent of covered payroll. Required contributions are based on projected pay-as-you-go financing.

Annual OPEB Cost and Net OPEB Obligation – The following table shows the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation for the fiscal year ending June 30, 2017:

District School Board of Volusia County, Florida
Notes to the Financial Statements

Increase in Net OPEB Obligation	(116,841)
Net OPEB Obligation, Beginning of Year	20,905,486
Net OPEB Obligation, End of Year	\$ 20,788,645

The District's historical annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of June 30, 2017, and the two preceding years, were as follows:

Fiscal Year	Annual OPEB Cost	Amount Contributed	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2015	\$ 3,721,152	\$ 1,675,471	45.0%	\$ 20,330,588
6/30/2016	1,709,856	1,134,958	66.4%	20,905,486
6/30/2017	1,806,036	1,922,877	106.5%	20,788,645

Funding Status and Funding Progress – As of June 30, 2017, the actuarial accrued liability for benefits was \$9,211,278 and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability of \$9,211,278 and a funded ratio of 0.00 percent. The covered payroll (annual payroll for active participating employees) was \$330,585,332 for the 2016-17 fiscal year, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 2.8 percent.

The required schedule of funding progress immediately following the notes to financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and that actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Examples include assumptions about future employment and termination, mortality, and the healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. Projections of benefits for financial reporting purposes are based on the substantive plan provisions, as understood by the employer and participating members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

District School Board of Volusia County, Florida
Notes to the Financial Statements
June 30, 2017

The District's OPEB actuarial valuation for the 2016-17 fiscal year used the entry age normal cost actuarial method to estimate the unfunded actuarial liability and to determine the annual required contribution. Because the OPEB liability is currently unfunded, the actuarial assumptions included a 4.0 percent rate of return on invested assets, which is the District's long-term expectation of investment returns. The actuarial assumptions also included a payroll growth rate of 3.5 percent per year, general inflation of 2.5 percent, a pre-65 healthcare cost trend rate of 7.45 percent initially for the 2016-17 fiscal year, reduced to an ultimate rate of 4.50 percent for the fiscal year ending June 30, 2025. The unfunded actuarial accrued liability is amortized over a closed 30 year period as a level percentage of projected payroll assumed to grow 3.5 percent per year.

District School Board of Volusia County, Florida
Notes to the Financial Statements
June 30, 2017

17. RISK MANAGEMENT PROGRAMS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Workers' compensation and fleet coverage are being provided on a self-insured basis up to specified limits, while general liability is totally self-insured by the District. The District has entered into agreements with various insurance companies to provide specific excess coverage of worker's compensation and fleet claim amounts above the stated amount on an individual claim basis, and aggregate excess coverage when total claims, minus specific excess coverage, exceed the loss fund established annually by the District. The District has contracted with an insurance administrator to administer these self-insurance programs, including the processing, investigating, and payment of claims.

Property and casualty coverage is obtained through purchased commercial insurance. The property insurance fund is used to track premiums and any claims expense. In the 2016-17 fiscal year, property insurance coverage amounts were \$90 million for named wind and \$140 million excess of wind.

A liability in the amount of \$4,201,051 was actuarially determined to cover estimated incurred, but not reported, insurance claims payable at June 30, 2017.

The following schedule represents the changes in claims liability for the past two fiscal years for the District's self-insurance program:

<u>Fiscal Years</u>	<u>Beginning-of- Fiscal-Year Liability</u>	<u>Current-Year Claims and Changes in Estimates</u>	<u>Claims Payments</u>	<u>Balance at Fiscal Year-End</u>
2015-16	\$ 4,161,549	\$ 1,606,691	\$ (1,633,964)	\$ 4,134,276
2016-17	4,134,276	2,257,659	(2,190,884)	4,201,051

Health and hospitalization coverage are being provided through purchased commercial insurance.

Settled claims resulting from the risks described above have not exceeded commercial coverage in any of the past three fiscal years.

19. LITIGATION

The District is involved in several pending and threatened legal actions. In the opinion of District management, the range of potential loss from all such claims and actions should not materially affect the financial condition of the District.

Amounts received or receivable from grantors are subject to audit and adjustment by grantor agencies, principally the Federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by grantors cannot be determined at this time although the District expects such amounts, if any, to be immaterial.
