### ScreenBeam 750 or 960

Brand: ActionTec  
Model: ScreenBeam 750 or 960 Available  
Device Specifications: The ScreenBeam can be used with an existing projector or a TV monitor. The ScreenBeam uses Miracast technology to allow presenter to connect "wirelessly" to the projector/TV. The presenter/teacher can move throughout the room with ease and not be "tethered" to one location in the room. PLEASE NOTE: The 750 ScreenBeam model works for Windows-based laptops that have miracast functionality. This model does not cast iPads/Apple products. If you are seeking a ScreenBeam capable of mirroring iOS devices (Apple), you will need to indicate that you need the 960 ScreenBeam. \*Please note, the 960 ScreenBeam device requires multicast networking enabled at the site using it, Technology Services & Innovation would need to confirm with Networking that it would work as intended in the designated location\*
